

# TABLE COVERS

Buy 6½ yards of 60" wide light weight polyester fabric. Cut 4 yards and 12 inches off for bigger section, cut the smaller piece of fabric in half lengthwise for the back side 30" drop. Fold over the edge seams where they meet in the back for your opening and sew. Sew the large section and two small pieces together overlapping the back opening. Round the corners - this helps keep the fabric off the floor so no one trips and pulls your carvings onto the floor. Sew a 1" hem around the entire table covering.
